## **Item 2: Material Changes**

Mercurio Wealth Advisors has the following material changes to report since the last other-than annual amendment submitted on January 31, 2019. Material changes relate to Mercurio Wealth Advisors' policies, practices or conflicts of interests.

- The firm has revised its fees for portfolio management services. In addition, for selection of AE Wealth Management as a third-party adviser, the firm now applies a fee schedule which varies based on a client's total assets under management. (Item 5)
- The firm's fees are no longer negotiable. (Item 5)
- The firm now requires fourteen days' notice to terminate an advisory contract. (Item 5)

## Item 4: Advisory Business

### A. Description of the Advisory Firm

Mercurio & Associates Inc. d/b/a Mercurio Wealth Advisors (hereinafter "MWA") is a corporation owned by Donald Alan Mercurio. The firm was formed in April 2000 and serves as the entity through which Mr. Mercurio provides insurance activities. It became registered as an investment adviser in January 2017.

### B. Types of Advisory Services

#### *Portfolio Management & Selection of Other Advisers*

MWA offers ongoing portfolio management services based on the individual goals, objectives, time horizon, and risk tolerance of each client and may direct clients to third-party investment advisers to manage all or a portion of the client's assets. MWA will provide one or more of the following services, as memorialized in the client's Investment Advisory Contract.

- manage the investments in the client's account in accordance with the client's investment objectives
- recommend third-party investment advisers in accordance with the client's investment objectives
- monitor the investments supervised by those recommended third-party investment advisers
- appraise and review (at least quarterly) the investments in the client's account

In order to provide these services, MWA creates an Investment Policy Statement for each client, which outlines the client's current situation (income, tax levels, and risk tolerance levels) and then constructs a plan to aid in the selection of a portfolio that matches each client's specific situation. Portfolio management services include, but are not limited to, the following:

- Investment strategy
- Asset allocation
- Risk tolerance
- Personal investment policy
- Asset selection
- Regular portfolio monitoring

Third party investment advisers, AE Wealth Management and FormulaFolio Investments, are utilized by MWA for certain accounts. MWA evaluates the current investments of each client with respect to their risk tolerance levels and time horizon. In some cases, MWA will request discretionary authority from clients in order to select securities and execute transactions without permission from the client prior to each transaction. Risk tolerance levels are documented in the Investment Policy Statement, which is given to each client.

MWA seeks to provide that investment decisions are made in accordance with the fiduciary duties owed to its accounts and without consideration of MWA's economic, investment or other financial interests. To meet its fiduciary obligations, MWA attempts to avoid, among other things, investment or trading practices that systematically advantage or disadvantage certain client portfolios, and accordingly, MWA's policy is to seek fair and equitable allocation of investment opportunities/transactions among its clients to avoid favoring one client over another over time. It is MWA's policy to allocate investment opportunities and transactions it identifies as being appropriate and prudent, including initial public offerings ("IPOs") and other investment opportunities that might have a limited supply, among its clients on a fair and equitable basis over time.

### ***Financial Planning***

Financial plans and financial planning may include, but are not limited to: investment planning; life insurance; tax concerns; retirement planning; college planning; and debt/credit planning.

### ***Services Limited to Specific Types of Investments***

MWA generally limits its investment advice to mutual funds, fixed income securities, insurance products including annuities, equities, ETFs (including ETFs in the gold and precious metal sectors), treasury inflation protected/inflation linked bonds or non-U.S. securities. MWA may use other securities as well to help diversify a portfolio when applicable.

## **C. Client Tailored Services and Client Imposed Restrictions**

MWA will tailor a program for each individual client. This will include an interview session to get to know the client's specific needs and requirements as well as a plan that will be executed by MWA on behalf of the client. MWA may use "model portfolios" together with a specific set of recommendations for each client based on their personal restrictions, needs, and targets. Clients may not impose restrictions in investing in certain securities or types of securities in accordance with their values or beliefs.

## **D. Wrap Fee Programs**

A wrap fee program is an investment program where the investor pays one stated fee that includes management fees, transaction costs, fund expenses, and other administrative fees.

MWA utilizes AE Wealth Management for certain wrap fee accounts, for which AE Wealth Management serves as sponsor of the program. Other accounts outside of AE Wealth Management's wrap fee program are non-wrap fee accounts.

## E. Assets Under Management

MWA has the following assets under management:

Discretionary Amounts:	Non-discretionary Amounts:	Date Calculated:
\$58,831,586.00	\$0.00	December 2018

## Item 5: Fees and Compensation

### A. Fee Schedule

#### *Portfolio Management & Selection of Other Advisers*

The final fee schedule will be attached as Exhibit I of the Investment Advisory Contract. Clients may terminate the contract without penalty for a full refund of MWA's fees within five business days of signing the Investment Advisory Contract. Thereafter, clients may terminate the Investment Advisory Contract generally with fourteen days' written notice.

#### *Direct Portfolio Management*

Total Assets	Maximum Annual Fees
All Assets	1.50%

#### *Selection of AE Wealth Management*

Total Assets	MWA's Fee	AEWM's Fee	Maximum Total Annual Fee
Under \$1,000,000	1.00%	0.50%	1.50%
\$1,000,000 - \$2,000,000	0.75%	0.45%	1.20%
\$2,000,001 and up	0.50%	0.40%	0.90%

#### *Selection of FormulaFolio Investments*

Total Assets	MWA's Fee	FFI's Fee*	Maximum Total Annual Fee
All Assets	1.00%	0.30%-0.75%	1.75%

*\*FormulaFolio's fee depends on the portfolio selected for the client.*

## ***Financial Planning***

The negotiated fixed rate for creating client financial plans is between \$250 and \$2,500. These fees are generally negotiable, and the final fee schedule is attached as Exhibit II of the Financial Planning Agreement. Clients may terminate the agreement without penalty for a full refund of MWA's fees within five business days of signing the Financial Planning Agreement. Thereafter, clients may terminate the Financial Planning Agreement generally upon written notice.

## **B. Payment of Fees**

### ***Direct Portfolio Management Fees***

Asset-based portfolio management fees are withdrawn directly from the client's accounts with client's written authorization. Investment advisory fees are charged quarterly in advance. For purposes of calculating the advisory fee, MWA uses the value of the account as of the last business day of the prior billing period for purposes of determining the market value of the assets upon which the advisory fee is based. The fee will vary on a quarterly basis depending on the market value of the account as of the last business day of the billing period. Fees are prorated based on the number of days service is provided during each billing period. If managed account services are commenced in the middle of the billing period, then the prorated fee for that billing period will be billed in advance at the outset of the advisory relationship.

### ***Selection of AE Wealth Management Fees***

Investment advisory fees are charged based on a percentage of assets under management and billed monthly in arrears (at the end of the billing period). Fees are calculated based on the average daily balance of the Account during the current billing period. The fee will vary on a monthly basis depending on the market value of the Account. Fees are prorated based on the number of days service is provided during each billing period. If managed account services are commenced in the middle of the billing period, then the prorated fee for that billing period will be billed in arrears at the end of that billing period. The actual fee amount depends on the total assets under management the client will have at AE Wealth Management.

### ***Selection of FormulaFolio Investments***

Annual management fees are billed monthly in-arrears based on the average daily balance of the managed account for the preceding calendar month with statements sent quarterly. For partial months, fees are prorated for only the days in the preceding month when the account managed. The fee will vary on a monthly basis depending on the market value of the Account. If managed account services are commenced in the middle of the billing period, then the prorated fee for that billing period will be billed in arrears at the end of that billing period. The actual fee amount depends on the strategy selected for the client and will be indicated in the third-party advisory agreement with the client.

### ***Financial Planning Fees***

Financial planning fees are paid via check. Fixed financial planning fees are paid 50% in advance, but never more than six months in advance, with the remainder due upon presentation of the plan.

#### **C. Client Responsibility For Third Party Fees**

Clients are responsible for the payment of all third-party fees (i.e. custodian fees, brokerage fees, mutual fund fees, transaction fees, etc.). Those fees are separate and distinct from the fees and expenses charged by MWA. Please see Item 12 of this brochure regarding broker-dealer/custodian.

#### **D. Prepayment of Fees**

MWA collects certain fees in advance. Refunds for fees paid in advance will be returned within fourteen days to the client via check or return deposit back into the client's account.

For any paid but unearned asset-based fees collected in advance, the fee refunded will be equal to the balance of the fees collected in advance minus the daily rate\* times the number of days elapsed in the billing period up to and including the day of termination. (\*The daily rate is calculated by dividing the annual asset-based fee by 365.)

Any paid but unearned fixed fees that are collected in advance will be refunded based on the prorated amount of work completed at the point of termination.

#### **E. Outside Compensation For the Sale of Securities to Clients**

Neither MWA nor its supervised persons accept any compensation for the sale of securities, including asset-based sales charges or service fees from the sale of mutual funds.

### **Item 6: Performance-Based Fees and Side-By-Side Management**

MWA does not accept performance-based fees or other fees based on a share of capital gains on or capital appreciation of the assets of a client.

## Item 7: Types of Clients

MWA generally provides advisory services to the following types of clients:

- ❖ Individuals
- ❖ High-Net-Worth Individuals

There is no account minimum for any of MWA's services.

## Item 8: Methods of Analysis, Investment Strategies, & Risk of Loss

### A. Methods of Analysis and Investment Strategies

#### *Methods of Analysis*

MWA's methods of analysis include Charting analysis, Cyclical analysis, Fundamental analysis, Modern portfolio theory, Quantitative analysis or Technical analysis.

**Charting analysis** involves the use of patterns in performance charts. MWA uses this technique to search for patterns used to help predict favorable conditions for buying and/or selling a security.

**Cyclical analysis** involves the analysis of business cycles to find favorable conditions for buying and/or selling a security.

**Fundamental analysis** involves the analysis of financial statements, the general financial health of companies, and/or the analysis of management or competitive advantages.

**Modern portfolio theory** is a theory of investment that attempts to maximize portfolio expected return for a given amount of portfolio risk, or equivalently minimize risk for a given level of expected return, each by carefully choosing the proportions of various asset.

**Quantitative analysis** deals with measurable factors as distinguished from qualitative considerations such as the character of management or the state of employee morale, such as the value of assets, the cost of capital, historical projections of sales, and so on.

**Technical analysis** involves the analysis of past market data; primarily price and volume.

#### *Investment Strategies*

MWA uses long term trading, short term trading, margin transactions or options trading (including covered options, uncovered options, or spreading strategies).

MWA may recommend unusually risky investments to clients. For example, we have the ability to use options trades; however, these are targeted at creating income (Covered Calls) or at protecting a single large holding (Option Collars).

**Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.**

## **B. Material Risks Involved**

### *Methods of Analysis*

**Charting analysis** strategy involves using and comparing various charts to predict long and short-term performance or market trends. The risk involved in using this method is that only past performance data is considered without using other methods to crosscheck data. Using charting analysis without other methods of analysis would be making the assumption that past performance will be indicative of future performance. This may not be the case.

**Cyclical analysis** assumes that the markets react in cyclical patterns which, once identified, can be leveraged to provide performance. The risks with this strategy are two-fold: 1) the markets do not always repeat cyclical patterns; and 2) if too many investors begin to implement this strategy, then it changes the very cycles these investors are trying to exploit.

**Fundamental analysis** concentrates on factors that determine a company's value and expected future earnings. This strategy would normally encourage equity purchases in stocks that are undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

**Modern portfolio theory** assumes that investors are risk adverse, meaning that given two portfolios that offer the same expected return, investors will prefer the less risky one. Thus, an investor will take on increased risk only if compensated by higher expected returns. Conversely, an investor who wants higher expected returns must accept more risk. The exact trade-off will be the same for all investors, but different investors will evaluate the trade-off differently based on individual risk aversion characteristics. The implication is that a rational investor will not invest in a portfolio if a second portfolio exists with a more favorable risk-expected return profile – i.e., if for that level of risk an alternative portfolio exists which has better expected returns.

**Quantitative analysis** Investment strategies using quantitative models may perform differently than expected as a result of, among other things, the factors used in the models, the weight placed on each factor, changes from the factors' historical trends, and technical issues in the construction and implementation of the models.

**Technical analysis** attempts to predict a future stock price or direction based on market trends. The assumption is that the market follows discernible patterns and if these

patterns can be identified then a prediction can be made. The risk is that markets do not always follow patterns and relying solely on this method may not take into account new patterns that emerge over time.

### ***Investment Strategies***

MWA's use of margin transactions or options trading generally holds greater risk, and clients should be aware that there is a material risk of loss using any of those strategies.

**Long term trading** is designed to capture market rates of both return and risk. Due to its nature, the long-term investment strategy can expose clients to various types of risk that will typically surface at various intervals during the time the client owns the investments. These risks include but are not limited to inflation (purchasing power) risk, interest rate risk, economic risk, market risk, and political/regulatory risk.

**Margin transactions** use leverage that is borrowed from a brokerage firm as collateral. When losses occur, the value of the margin account may fall below the brokerage firm's threshold thereby triggering a margin call. This may force the account holder to either allocate more funds to the account or sell assets on a shorter time frame than desired.

**Options transactions** involve a contract to purchase a security at a given price, not necessarily at market value, depending on the market. This strategy includes the risk that an option may expire out of the money resulting in minimal or no value, as well as the possibility of leveraged loss of trading capital due to the leveraged nature of stock options.

**Selection of Other Advisers:** MWA's selection process cannot ensure that money managers will perform as desired and MWA will have no control over the day-to-day operations of any of its selected money managers. MWA would not necessarily be aware of certain activities at the underlying money manager level, including without limitation a money manager's engaging in unreported risks, investment "style drift" or even regulatory breaches or fraud.

**Short term trading** risks include liquidity, economic stability, and inflation, in addition to the long-term trading risks listed above. Frequent trading can affect investment performance, particularly through increased brokerage and other transaction costs and taxes.

**Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.**

### **C. Risks of Specific Securities Utilized**

MWA's use of margin transactions or options trading generally holds greater risk of capital loss. Clients should be aware that there is a material risk of loss using any investment strategy. The investment types listed below (leaving aside Treasury Inflation

Protected/Inflation Linked Bonds) are not guaranteed or insured by the FDIC or any other government agency.

**Mutual Funds:** Investing in mutual funds carries the risk of capital loss and thus you may lose money investing in mutual funds. All mutual funds have costs that lower investment returns. The funds can be of bond “fixed income” nature (lower risk) or stock “equity” nature.

**Equity** investment generally refers to buying shares of stocks in return for receiving a future payment of dividends and/or capital gains if the value of the stock increases. The value of equity securities may fluctuate in response to specific situations for each company, industry conditions and the general economic environments.

**Fixed income** investments generally pay a return on a fixed schedule, though the amount of the payments can vary. This type of investment can include corporate and government debt securities, leveraged loans, high yield, and investment grade debt and structured products, such as mortgage and other asset-backed securities, although individual bonds may be the best-known type of fixed income security. In general, the fixed income market is volatile and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk, liquidity risk, call risk, and credit and default risks for both issuers and counterparties. The risk of default on treasury inflation protected/inflation linked bonds is dependent upon the U.S. Treasury defaulting (extremely unlikely); however, they carry a potential risk of losing share price value, albeit rather minimal. Risks of investing in foreign fixed income securities also include the general risk of non-U.S. investing described below.

**Exchange Traded Funds (ETFs):** An ETF is an investment fund traded on stock exchanges, similar to stocks. Investing in ETFs carries the risk of capital loss (sometimes up to a 100% loss in the case of a stock holding bankruptcy). Areas of concern include the lack of transparency in products and increasing complexity, conflicts of interest and the possibility of inadequate regulatory compliance. Precious Metal ETFs (e.g., Gold, Silver, or Palladium Bullion backed “electronic shares” not physical metal) specifically may be negatively impacted by several unique factors, among them (1) large sales by the official sector which own a significant portion of aggregate world holdings in gold and other precious metals, (2) a significant increase in hedging activities by producers of gold or other precious metals, (3) a significant change in the attitude of speculators and investors.

**Annuities** are a retirement product for those who may have the ability to pay a premium now and want to guarantee they receive certain monthly payments or a return on investment later in the future. Annuities are contracts issued by a life insurance company designed to meet requirement or other long-term goals. An annuity is not a life insurance policy. Variable annuities are designed to be long-term investments, to meet retirement and other long-range goals. Variable annuities are not suitable for meeting short-term goals because substantial taxes and insurance company charges may apply if

you withdraw your money early. Variable annuities also involve investment risks, just as mutual funds do.

**Options** are contracts to purchase a security at a given price, risking that an option may expire out of the money resulting in minimal or no value. An uncovered option is a type of options contract that is not backed by an offsetting position that would help mitigate risk. The risk for a “naked” or uncovered put is not unlimited, whereas the potential loss for an uncovered call option is limitless. Spread option positions entail buying and selling multiple options on the same underlying security, but with different strike prices or expiration dates, which helps limit the risk of other option trading strategies. Option transactions also involve risks including but not limited to economic risk, market risk, sector risk, idiosyncratic risk, political/regulatory risk, inflation (purchasing power) risk and interest rate risk.

**Non-U.S. securities-** present certain risks such as currency fluctuation, political and economic change, social unrest, changes in government regulation, differences in accounting and the lesser degree of accurate public information available.

**Past performance is not indicative of future results. Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.**

## **Item 9: Disciplinary Information**

### **A. Criminal or Civil Actions**

There are no criminal or civil actions to report.

### **B. Administrative Proceedings**

There are no administrative proceedings to report.

### **C. Self-regulatory Organization (SRO) Proceedings**

There are no self-regulatory organization proceedings to report.

## **Item 10: Other Financial Industry Activities and Affiliations**

### **A. Registration as a Broker/Dealer or Broker/Dealer Representative**

Neither MWA nor its representatives are registered as, or have pending applications to become, a broker/dealer or a representative of a broker/dealer.

## **B. Registration as a Futures Commission Merchant, Commodity Pool Operator, or a Commodity Trading Advisor**

Neither MWA nor its representatives are registered as or have pending applications to become either a Futures Commission Merchant, Commodity Pool Operator, or Commodity Trading Advisor or an associated person of the foregoing entities.

## **C. Registration Relationships Material to this Advisory Business and Possible Conflicts of Interests**

Supervised person of MWA are licensed insurance agents with Mercurio & Associates Inc. (this investment advisory firm). They will offer clients advice or products from those activities and clients should be aware that these services pay a commission or other compensation and involve a conflict of interest, as commissionable products conflict with the fiduciary duties of a registered investment adviser. MWA always acts in the best interest of the client, including the sale of commissionable products to advisory clients. Clients are in no way required to utilize the services of any representative of MWA in connection with such individual's insurance-related activities.

## **D. Selection of Other Advisers or Managers and How This Adviser is Compensated for Those Selections**

MWA may direct clients to third-party investment advisers to manage all or a portion of the client's assets. MWA will be compensated via a fee share from the advisers to which it directs those clients. The fees shared will not exceed any limit imposed by any regulatory agency. This creates a conflict of interest in that MWA has an incentive to direct clients to the third-party investment advisers that provide MWA with a larger fee split. MWA will always act in the best interests of the client, including when determining which third-party investment adviser to recommend to clients. MWA will ensure that all recommended advisers are licensed, or notice filed in the states in which MWA is recommending them to clients.

# **Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading**

## **A. Code of Ethics**

MWA has a written Code of Ethics that covers the following areas: Prohibited Purchases and Sales, Insider Trading, Personal Securities Transactions, Exempted Transactions, Prohibited Activities, Conflicts of Interest, Gifts and Entertainment, Confidentiality, Service on a Board of Directors, Compliance Procedures, Compliance with Laws and Regulations, Procedures and Reporting, Certification of Compliance, Reporting Violations, Compliance Officer Duties, Training and Education, Recordkeeping, Annual

Review, and Sanctions. MWA's Code of Ethics is available free upon request to any client or prospective client.

### **B. Recommendations Involving Material Financial Interests**

MWA does not recommend that clients buy or sell any security in which a related person to MWA or MWA has a material financial interest.

### **C. Investing Personal Money in the Same Securities as Clients**

From time to time, representatives of MWA may buy or sell securities for themselves that they also recommend to clients. This may provide an opportunity for representatives of MWA to buy or sell the same securities before or after recommending the same securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest. MWA will always document any transactions that could be construed as conflicts of interest and will never engage in trading that operates to the client's disadvantage when similar securities are being bought or sold.

### **D. Trading Securities At/Around the Same Time as Clients' Securities**

From time to time, representatives of MWA may buy or sell securities for themselves at or around the same time as clients. This may provide an opportunity for representatives of MWA to buy or sell securities before or after recommending securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest; however, MWA will never engage in trading that operates to the client's disadvantage if representatives of MWA buy or sell securities at or around the same time as clients.

## **Item 12: Brokerage Practices**

### **A. Factors Used to Select Custodians and/or Broker/Dealers**

Custodians/broker-dealers will be recommended based on MWA's duty to seek "best execution," which is the obligation to seek execution of securities transactions for a client on the most favorable terms for the client under the circumstances. Clients will not necessarily pay the lowest commission or commission equivalent, and MWA may also consider the market expertise and research access provided by the broker-dealer/custodian, including but not limited to access to written research, oral communication with analysts, admittance to research conferences and other resources provided by the brokers that may aid in MWA's research efforts. MWA will never charge a premium or commission on transactions, beyond the actual cost imposed by the broker-dealer/custodian.

MWA recommends Charles Schwab & Co., Inc. Advisor Services, TD Ameritrade Institutional, a division of TD Ameritrade, Inc. Member FINRA/SIPC, or Fidelity Brokerage Services LLC.

### ***1. Research and Other Soft-Dollar Benefits***

While MWA has no formal soft dollars program in which soft dollars are used to pay for third party services, MWA may receive research, products, or other services from custodians and broker-dealers in connection with client securities transactions (“soft dollar benefits”). MWA may enter into soft-dollar arrangements consistent with (and not outside of) the safe harbor contained in Section 28(e) of the Securities Exchange Act of 1934, as amended. There can be no assurance that any particular client will benefit from soft dollar research, whether or not the client’s transactions paid for it, and MWA does not seek to allocate benefits to client accounts proportionate to any soft dollar credits generated by the accounts. MWA benefits by not having to produce or pay for the research, products or services, and MWA will have an incentive to recommend a broker-dealer based on receiving research or services. Clients should be aware that MWA’s acceptance of soft dollar benefits may result in higher commissions charged to the client.

### ***2. Brokerage for Client Referrals***

MWA receives no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

### ***3. Clients Directing Which Broker/Dealer/Custodian to Use***

MWA will require clients to use a specific broker-dealer to execute transactions. Not all advisers require clients to use a particular broker-dealer.

## **B. Aggregating (Block) Trading for Multiple Client Accounts**

MWA does not aggregate or bunch the securities to be purchased or sold for multiple clients. This may result in less favorable prices, particularly for illiquid securities or during volatile market conditions.

## **Item 13: Review of Accounts**

### **A. Frequency and Nature of Periodic Reviews and Who Makes Those Reviews**

All client accounts for MWA's advisory services provided on an ongoing basis are reviewed at least quarterly with regard to clients’ respective investment policies and risk

tolerance levels by Donald Alan Mercurio, President, and/or his designee. All accounts at MWA are assigned to this reviewer.

All financial planning accounts are reviewed upon financial plan creation and plan delivery by Donald Alan Mercurio, President, and/or his designee. There is only one level of review for financial planning, and that is the total review conducted to create the financial plan.

### **B. Factors That Will Trigger a Non-Periodic Review of Client Accounts**

Reviews may be triggered by material market, economic or political events, or by changes in client's financial situations (such as retirement, termination of employment, physical move, or inheritance).

With respect to financial plans, MWA's services will generally conclude upon delivery of the financial plan.

### **C. Content and Frequency of Regular Reports Provided to Clients**

Each client of MWA's advisory services provided on an ongoing basis will receive a monthly report detailing the client's account, including assets held, asset value, and calculation of fees. This written report will come from the custodian. MWA will also provide at least quarterly a separate written statement to the client.

Each financial planning client will receive the financial plan upon completion.

## **Item 14: Client Referrals and Other Compensation**

### **A. Economic Benefits Provided by Third Parties**

Charles Schwab & Co., Inc. Advisor Services provides MWA with access to Charles Schwab & Co., Inc. Advisor Services' institutional trading and custody services, which are typically not available to Charles Schwab & Co., Inc. Advisor Services retail investors. These services generally are available to independent investment advisers on an unsolicited basis, at no charge to them so long as a total of at least \$10 million of the adviser's clients' assets are maintained in accounts at Charles Schwab & Co., Inc. Advisor Services. Charles Schwab & Co., Inc. Advisor Services includes brokerage services that are related to the execution of securities transactions, custody, research, including that in the form of advice, analyses and reports, and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment. For MWA client accounts maintained in its custody, Charles Schwab & Co., Inc. Advisor Services generally does not charge separately for custody services but is compensated by account

holders through commissions or other transaction-related or asset-based fees for securities trades that are executed through Charles Schwab & Co., Inc. Advisor Services or that settle into Charles Schwab & Co., Inc. Advisor Services accounts.

Charles Schwab & Co., Inc. Advisor Services also makes available to MWA other products and services that benefit MWA but may not benefit its clients' accounts. These benefits may include national, regional or MWA specific educational events organized and/or sponsored by Charles Schwab & Co., Inc. Advisor Services. Other potential benefits may include occasional business entertainment of personnel of MWA by Charles Schwab & Co., Inc. Advisor Services personnel, including meals, invitations to sporting events, including golf tournaments, and other forms of entertainment, some of which may accompany educational opportunities. Other of these products and services assist MWA in managing and administering clients' accounts. These include software and other technology (and related technological training) that provide access to client account data (such as trade confirmations and account statements), facilitate trade execution (and allocation of aggregated trade orders for multiple client accounts, if applicable), provide research, pricing information and other market data, facilitate payment of MWA's fees from its clients' accounts (if applicable), and assist with back-office training and support functions, recordkeeping and client reporting. Many of these services generally may be used to service all or some substantial number of MWA's accounts. Charles Schwab & Co., Inc. Advisor Services also makes available to MWA other services intended to help MWA manage and further develop its business enterprise. These services may include professional compliance, legal and business consulting, publications and conferences on practice management, information technology, business succession, regulatory compliance, employee benefits providers, and human capital consultants, insurance and marketing. In addition, Charles Schwab & Co., Inc. Advisor Services may make available, arrange and/or pay vendors for these types of services rendered to MWA by independent third parties. Charles Schwab & Co., Inc. Advisor Services may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to MWA. MWA is independently owned and operated and not affiliated with Charles Schwab & Co., Inc. Advisor Services.

MWA participates in the institutional advisor program (the "Program") offered by TD Ameritrade. TD Ameritrade offers to independent investment advisor services which include custody of securities, trade execution, clearance and settlement of transactions. MWA receives some benefits from TD Ameritrade through its participation in the Program.

As part of the Program, MWA may recommend TD Ameritrade to clients for custody and brokerage services. There is no direct link between MWA's participation in the Program and the investment advice it gives to its clients, although MWA receives economic benefits through its participation in the Program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving MWA participants; access to block trading (which

provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to client accounts); the ability to have MWA's fees deducted directly from client accounts; access to an electronic communications network for client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to MWA by third party vendors. TD Ameritrade may also pay for business consulting and professional services received by MWA's related persons. Some of the products and services made available by TD Ameritrade through the Program may benefit MWA but may not benefit its client accounts. These products or services may assist MWA in managing and administering client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help MWA manage and further develop its business enterprise. The benefits received by MWA or its personnel through participation in the Program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to clients, MWA endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by MWA or its related persons in and of itself creates a conflict of interest and may indirectly influence the MWA's choice of TD Ameritrade for custody and brokerage services.

#### **B. Compensation to Non – Advisory Personnel for Client Referrals**

MWA does not directly or indirectly compensate any person who is not advisory personnel for client referrals.

#### **Item 15: Custody**

If advisory fees are deducted directly from client accounts at client's custodian upon MWA's instruction, MWA will (i) maintain client written authorization and (ii) when required, send to the custodian and the client an itemized fee invoice, detailing the formula used to calculate the fee, the assets under management the fee was based on, and the time period covered by the fee. By complying with these safeguards, MWA will be deemed to have limited custody of client's assets and must have written authorization from the client to do so. Clients will receive all account statements and billing invoices that are required in each jurisdiction, and they should carefully review those statements for accuracy.

#### **Item 16: Investment Discretion**

MWA provides discretionary investment advisory services to clients. The Investment Advisory Contract established with each client sets forth the discretionary authority for trading. Where investment discretion has been granted, MWA generally manages the client's account and makes investment decisions without consultation with the client as to when the securities are to be bought or sold for the account, the total amount of the securities to be bought/sold, what securities to buy or sell, or the price per share. In some instances, MWA's discretionary

authority in making these determinations may be limited by conditions imposed by a client (in investment guidelines or objectives, or client instructions otherwise provided to MWA. MWA will also have discretionary authority to determine the broker dealer to be used for a purchase or sale of securities for a client's account.

## **Item 17: Voting Client Securities (Proxy Voting)**

MWA will not ask for, nor accept voting authority for client securities. Except as agreed between a client and a third-party investment adviser, clients will receive proxies directly from the issuer of the security or the custodian. Clients should direct all proxy questions to the issuer of the security.

## **Item 18: Financial Information**

### **A. Balance Sheet**

MWA neither requires nor solicits prepayment of more than \$500 in fees per client, six months or more in advance, and therefore is not required to include a balance sheet with this brochure.

### **B. Financial Conditions Reasonably Likely to Impair Ability to Meet Contractual Commitments to Clients**

Neither MWA nor its management has any financial condition that is likely to reasonably impair MWA's ability to meet contractual commitments to clients.

### **C. Bankruptcy Petitions in Previous Ten Years**

MWA has not been the subject of a bankruptcy petition in the last ten years.

## **Item 19: Requirements For State Registered Advisers**

### **A. Principal Executive Officers and Management Persons; Their Formal Education and Business Background**

MWA currently has only one management person: Donald Alan Mercurio. Education and business background can be found on the individual's Form ADV Part 2B brochure supplement.

**B. Other Businesses in Which This Advisory Firm or its Personnel are Engaged and Time Spent on Those (If Any)**

Other business activities for each relevant individual can be found on the Form ADV Part 2B brochure supplement for each such individual.

**C. Calculation of Performance-Based Fees and Degree of Risk to Clients**

MWA does not accept performance-based fees or other fees based on a share of capital gains on or capital appreciation of the assets of a client.

**D. Material Disciplinary Disclosures for Management Persons of this Firm**

No management person at MWA or MWA has been found liable in an arbitration claim or been found liable in a civil, self-regulatory organization, or administrative proceeding that is material to the client's evaluation of the firm or its management.

**E. Material Relationships That Management Persons Have With Issuers of Securities (If Any)**

See Item 10.C and 11.B.

## PRIVACY POLICY

Investment advisers are required by law to inform their clients of their policies regarding privacy of client information. We are bound by professional standards of confidentiality that are even more stringent than those required by law. Federal law gives the customer the right to limit some but not all sharing of personal information. It also requires us to tell you how we collect, share, and protect your personal information.

### TYPES OF NONPUBLIC PERSONAL INFORMATION (NPI) WE COLLECT

We collect nonpublic personal information about you that is either provided to us by you or obtained by us with your authorization. This can include but is not limited to your Social Security Number, Date of Birth, Banking Information, Financial Account Numbers and/or Balances, Sources of Income, and Credit Card Numbers or Information. When you are no longer our customer, we may continue to share your information only as described in this notice.

### PARTIES TO WHOM WE DISCLOSE INFORMATION

All Investment Advisers may need to share personal information to run their everyday business. In the section below, we list the reasons that we may share your personal information:

- For everyday business purposes – such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus;
- For our marketing – to offer our products and services to you;
- For joint marketing with other financial companies;
- For our affiliates' everyday business purposes – information about your transactions and experiences and information about your creditworthiness; or
- For non-affiliates to market to you.

If you are a new customer we may begin sharing your

information on the day you sign our agreement. When you are no longer our customer, we may continue to share your information as described in this notice. However, you can contact us at any time to limit our sharing.

### PROTECTING CONFIDENTIALITY OF CURRENT AND FORMER CLIENT'S INFORMATION

To protect your personal information from unauthorized access and use, we use security measures that comply with federal law, including computer safeguards and secured files and building.

### FEDERAL & STATE LAW ALLOWS YOU TO LIMIT SHARING – OPTING OUT

Federal law allows you the right to limit the sharing of your NPI by “opting-out” of the following: sharing for non-affiliates' everyday business purposes – information about your creditworthiness; or sharing with affiliates or non-affiliates who use your information to market to you. State laws and individual companies may give you additional rights to limit sharing. Please notify us immediately if you choose to opt out of these types of sharing.

**DEFINITIONS:** Affiliates – companies related by common ownership or control. They can be financial and non-financial companies; Non-affiliates – companies not related by common ownership or control. They can be financial and non-financial companies; Joint marketing – a formal agreement between non-affiliated financial companies that together market financial products or services to you.

*Please call if you have any questions. Your privacy, our professional ethics, and the ability to provide you with quality financial services are very important to us.*
